VELASHAPE

Thanks to a combination of the physical effects of radiofrequency current, vacuum, tissue manipulation and infrared, the main causes of cellulite are treated in a single treatment session: localized fat proliferation, loss of elasticity of the connective tissue, and reduction of local microcirculation and lymphedema.

Velashape is the only therapeutic system approved by the FDA (Food and Drug Administration) for the treatment of cellulite and the reduction of circumferences due to its proven scientific efficacy. Clinical studies demonstrate an average reduction in body circumference:

5.93 cm on the buttocks, 2.50 cm on the thigh, 7.37 cm on the abdomen

It is a simple, comfortable and pain-free treatment, with no surgery or downtime, resembling a gentle deep tissue massage.

SEMI-PERMANENT COSMETICS

ARRIVEDERCI TO STYLING AND THE MAKE-UP ROUTINE

Streamline your daily routine by bidding farewell to the intricacies of styling and makeup and welcome the convenience of semi-permanent cosmetics. This contemporary approach to cosmetic enhancement offers a naturally discreet make-up solution that elevates your inherent beauty, refining facial expression without the need for daily application.

Semi-permanent cosmetics involve a minimally invasive procedure that includes the application of high-quality colour pigments to the dermis and the long-term shaping of hairs. This technique supports the targeted accentuation of various facial zones, with options ranging from supernatural "soft hair brows" and trendy "blush lips" to impeccably shaped, sweeping eyelashes.

The application of semi-permanent makeup is painless. After the treatment, you can socialise immediately and fully enjoy the upcoming days.

DEEP SEA

RELAX & EXPAND

Deep Sea, an award-winning technological innovation, the first of its kind in the world, is a space unto itself, created in every detail by Daniel Lathan, a visionary, original audiologist and creative genius. This room is the culmination of all his knowledge in psychology, meditation, creativity, relaxation, design and personal development.

Immerse yourself in something you have never experienced, abandoned to an experience that fuses abstraction and form. Absorb the vibration of sound and the energy of color in a place where the mind has nothing to do, cannot interpret and can therefore relax and give space to creativity.

DEEP SEA ROOM (Sauna Tower, 1st floor)

Choose the program that is best for you, all the result of an algorithm, always slightly different. Enter the room, take a seat and travel between mind and matter. At the end, remain in the anteroom until the light reproduces the effect of the sun rising to helping you "return to earth."
